Professional Summary

Full Stack Software Engineer with 3+ years of experience delivering SaaS applications and REST APIs using React.js, Next.js, Node.js, NestJS, and TypeScript. Experienced in SQL/NoSQL databases, third-party integrations, payments, background jobs, AI-powered workflows, and cloud deployments.

Professional Experience

Full Stack Developer **Feb 2025 – Present**
NKU Technologies

- Develop and maintain SaaS backend services and REST APIs using TypeScript, Node.js, Express.js, NestJS, PostgreSQL, and MySQL.
- Implement authentication, third-party API integrations, background jobs, and data synchronization workflows supporting business applications.
- Collaborate with frontend and mobile teams to integrate backend services and deliver end-to-end application features.
- Contribute to Bubble.io applications and implement workflow automation using Make.com for targeted integration tasks.

Full Stack Developer **Oct 2023 – Jan 2025**
Mercury Sols

- Developed full-stack SaaS and business applications using React.js, Next.js, Node.js, Express.js, PostgreSQL, MySQL, and MongoDB.
- Delivered responsive dashboards, reusable UI components, REST APIs, authentication, and workflows for day-to-day business operations.
- Participated in client requirement discussions, effort estimation, project planning, and milestone-based feature delivery.

Selected Projects

Focal *NestJS, Node.js, MySQL, TypeScript, Background Workers*

- Built a NestJS service layer extending a Laravel ERP with third-party integrations, background workers, and automated data synchronization.
- Integrated Gusto, ShipHero, WooCommerce, and eBay to connect external systems with core ERP workflows.

Doc Africa *Express.js, PostgreSQL, React Native, TypeScript, OpenAI*

- Developed REST APIs for an AI-powered healthcare platform supporting doctor-patient consultations and associated clinical workflows.
- Implemented consultation data handling and AI-generated medical report workflows, with APIs supporting the React Native application.

Parks For Pups *Express.js, PostgreSQL, React.js, TypeScript, Stripe*

- Built a pet park booking SaaS with park listings, reservations, subscription management, and administrative workflows.
- Integrated Stripe payments and implemented server-side booking validation, reservation limits, and PostgreSQL-backed booking management.

Technical Skills

Languages: TypeScript, JavaScript
Frontend: React.js, Next.js, Redux, Tailwind CSS
Backend: Node.js, Express.js, NestJS, REST APIs, Microservices, Background Jobs
Databases: PostgreSQL, MySQL, MongoDB
Cloud & Tools: AWS EC2, AWS S3, AWS Lambda, Docker, Git, GitHub, Postman
Integrations & Automation: Stripe, OpenAI, Firebase, Supabase, Bubble.io, Make.com (basic)

Education & Training

BS Software Engineering Sep 2018 – Jul 2022
KFUEIT

MERN Bootcamp (Full-Stack Development) Nov 2022 – Feb 2023
CodeNinja
