Professional Summary

Full Stack Developer with 3 years of experience building SaaS applications, REST APIs, and responsive web interfaces. Backend-focused with hands-on experience in React.js, Next.js, Node.js, NestJS, TypeScript, SQL/NoSQL databases, third-party integrations, payment workflows, and AI-powered features.

Professional Experience

Full Stack Developer (MERN) **Feb 2025 – Present**
NKU Technologies *Lahore, Pakistan*

- Build and maintain SaaS backend services and REST APIs using Express.js, NestJS, TypeScript, PostgreSQL, and MySQL.
- Implement authentication, third-party integrations, background jobs, and data synchronization workflows.
- Collaborate with frontend teams to integrate APIs and deliver web and mobile application features.
- Contributed to two Bubble.io projects and gained hands-on exposure to workflow automation using Make.com.

Full Stack Developer (MERN) **Oct 2023 – Jan 2025**
Mercury Sols *Lahore, Pakistan*

- Built full-stack SaaS and management applications with React.js, Next.js, Node.js, Express.js, PostgreSQL, MySQL, and MongoDB.
- Developed responsive dashboards, reusable UI components, backend APIs, authentication, and business workflows.
- Contributed to client requirements, development estimates, project planning, and milestone delivery.

Selected Projects

Focal *NestJS, Node.js, MySQL, TypeScript, Background Workers*

- Built a NestJS microservice layer for a Laravel ERP system to handle external integrations, automated workers, and data synchronization.
- Integrated Gusto, ShipHero, WooCommerce, and eBay to support cross-platform ERP operations.

Doc Africa *Express.js, PostgreSQL, React Native, TypeScript, OpenAI*

- Developed APIs and consultation workflows for an AI-powered healthcare platform connecting patients and doctors.
- Implemented consultation data handling, AI-generated medical report flows, and React Native integration support.

Parks For Pups *Express.js, PostgreSQL, React.js, TypeScript, Stripe*

- Built a SaaS pet park booking platform with listings, reservations, booking limits, subscriptions, Stripe payments, and admin management.
- Implemented booking validation, payment workflows, and PostgreSQL-backed reservation management.

Technical Skills

Languages: JavaScript, TypeScript
Frontend: React.js, Next.js, Redux, Tailwind CSS
Backend: Node.js, Express.js, NestJS, REST APIs, Microservices, Background Jobs
Databases: PostgreSQL, MySQL, MongoDB
Cloud & Tools: AWS EC2, AWS S3, AWS Lambda, Docker, GitHub, Postman
No-Code & Automation: Bubble.io, Make.com (basic)
Integrations: Stripe, OpenAI, Firebase, Supabase

Education & Training

BS Software Engineering Sep 2018 – Jul 2022
KFUEIT

MERN Bootcamp (Full-Stack Development) Nov 2022 – Feb 2023
CodeNinja
